## ÁREAS DE INVESTIGACIÓN

Mi investigación se centra en **gobernanza urbana, informalidad (economía popular), alimentación y dinámicas espaciales**.

**Gobernanza Urbana:** Con un enfoque particular en la intermediación política y coordinación entre múltiples escalas de gobierno, examino cómo las burocracias, organizaciones sin fines de lucro y otros actores implementan leyes y configuran el acceso a bienes y servicios públicos.

**Dinámicas Espaciales:** Utilizando técnicas computacionales y espaciales, también examino la economía popular y las formas en que las personas habitan el espacio urbano, las dinámicas del comercio minorista y su impacto en el sistema alimentario.
