Mi investigación se centra en **gobernanza urbana, informalidad (economía popular), alimentación y dinámicas espaciales**.

- **Gobernanza Urbana:** Examino cómo las burocracias, organizaciones y otros actores no estatales implementan leyes y configuran el acceso a bienes y servicios públicos, con un enfoque particular en la intermediación política y coordinación entre múltiples escalas de gobierno.
- **Dinámicas Espaciales:** Utilizando técnicas computacionales y espaciales, también examino la economía popular y las formas en que las personas habitan el espacio urbano, las dinámicas del comercio minorista y su impacto en el sistema alimentario.
